9<sup>th</sup> Signal Company

NOTES:

1. The 9 U.S. Infantry Division was one of the nine regular formations organised in 1920, but it lost all the units allocated to it over the next few years. The division was re-organised in August 1940 at Fort Bragg in North Carolina and then sailed from the United States, part going to the U.K. and part direct to North Africa. The division came together in North Africa and fought throughout the Tunisian campaign. It was then sent to Sicily.
